

As you know, starting January 1, 2024, Authentic Health will convert to a direct primary care (DPC) practice. We are pleased to announce that Hopscotch Primary Care, a new company focused on providing high-quality primary care for seniors, is launching a separate clinic with new physicians in our Yorkshire Street building. If you do not wish to continue with us at Authentic Health and are covered by Medicare or a Medicare Advantage insurance plan, Hopscotch can be your primary care provider and will allow you to use your insurance to pay for in-office services.

While our providers at Authentic Health will not be working for Hopscotch, Hopscotch has two incredible, experienced physicians who are excited to meet you:

Dr. Robyn Latessa

Family Practice

*University of Massachusetts Medical School
East Carolina University School of Family Medicine*

Dr. Amy Santin

Family Practice

*University of North Carolina School of Medicine
MAHEC Family Medicine Residency Program*

If you would like to schedule an appointment in January 2024, please give Hopscotch a call at **(828) 203-2661** or visit Hopscotch's website at www.hellohopscotch.com. Their hours of operation will be **Monday–Friday, 8am–5pm**. We look forward to your next visit!

Sincerely,
Gus Vickery, MD
Troy Jackson, MD
Charley Messenger, PA
Don Varos, PA
